INSTINCT

Induction hob (table-top), double heating zone 372 x 609 mm

Models

☐ INSTINCT Hob 10

INSTINCT Hob 10

- Realtime Temperature Control System RTCSmp
- 2 x 12 power levels
- 2 x warm-holding function from 25 to 100 °C
- Timer function
- Specially energy efficient
- Convenient and reliable
- Short heating-up times
- Overheat protection

Properties

- Continuous temperature measurement at the bottom of the pan with RTCSmp technology (Realtime Temperature Control System multi-point)
- The reliable overheat protection prolongs the service life of both the induction appliance and the cookware
- Consistent power transfer over the entire cooking time for optimal cooking results
- Convenient cooking without heating up the cooking environment thanks to direct heat transfer from the hob to the pan by means of induction
- Easy to clean thanks to a removable, washable and reusable air filter
- Cool to touch cooking surface, means no “burn on” of food debris on the cooking surface
- Exceptionally robust and developed for continuous operation in the restaurant industry
- Conversion of the temperature display from degrees C to degrees F
- Reduction of the maximum power from 100% to 25%
- Warranty: 2 years on all parts

Included Features

- RTCSmp control/monitoring
- Height-adjustable, locking feet
- Washable air filter
